

DIMENSIONS:

Product Open: 438 x 260 x 19 mm (L x W x H)

[17.25 x 10.25 x 0.75 in]

Product Folded: 222 x 260 x 31.75 mm (L x W x H)

[8.75 x 10.25 x 1.25 in]

Product Packaging: 219.2 x 323.85 x 31.75 mm (L x W x H)

[8.63 x 12.75 x 1.25 in]

WEIGHT:

Product: 449.1 (0.99 lbs.)

Product with Packaging: 530.7 (1.17 lbs.)

POWER:

3.5 Watts Unregulated

3.0 Watt, 5 Volt System regulated

0.6 Amp Output (STC)

*STC- Standard Testing Conditions

MODEL NUMBERS:

KR0002PL

Kickr II+

PORTABLE SOLAR CHARGER

The Kickr II+ is an ultra-lightweight, weather-resistant solar charger that enables you to keep your small USB devices charged up at all times. Unlike other portable solar chargers, the 3-Watt Kickr II+ is built with a unique patented solar technology that allows the panels to be lighter, more flexible, and more durable than any other solar panel on the market. In addition, the Kickr II+ comes with an integrated 500 mAh battery embedded in the sleeve so you can store and save power for when you need it. This integrated battery helps ensure your devices are always charging and do not time out or quit charging when the sun is not accessible. When you unzip the Kickr II+, you will find a number of pockets to house a wide variety of devices while they charge from the Kickr II+. If you are looking for the most robust solar charging solution on the market, the Kickr II+ is the product for you.
