Multi 300 XL

Ultra High Brightness Re-chargeable Solar LED Light & Mobile Phone Charger

Multi 300 XL is Niwa's most powerful portable light and phone charging solar product for indoor and outdoor usage with an extra high ultra bright light mode for emergency situations. Its feature set, durable design and strong performance makes it the perfect product for people living without electricity looking for a high quality products.

Multi 300 XL offers powerful 300 Lumen of LED light and mobile phone charging capability at the same time. It's innovative battery technology leaves behind all the downsides of today's laptop and cell phone batteries: Extreme long lifetime (2000 cycles), no-Memory effect and eco-friendliness. Multi 300 XL comes with a highly durable aluminum frame 3 Watt panel and comfortably sized 3000 mAh battery. Multi 300 XL sets the bar new for what we can expect from portable solar products.

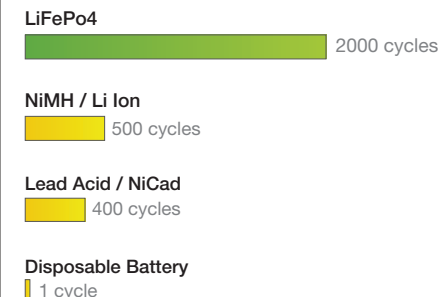

Light Technology	LED
Color Temperature	4700 - 5300 K White
Color Rendering (CRI)	85 Ra
