

Rolls Battery, herein referred to as the Company, warrants that batteries sold by it are merchantable and free of defects in workmanship and material at the time they are shipped from the Company's factory.

In the event that the Company makes a drop shipment to a distributor's customer, that customer must be instructed to perform an inspection of the goods BEFORE signing the delivery slip. The Company is not responsible for damaged product reported after shipment has been signed "Received in Good Condition". NOTE: ALL SHIPMENTS SHOULD BE THOROUGHLY INSPECTED FOR DAMAGE BEFORE SIGNING THE DELIVERY SLIP.

To claim a manufacturing warranty, proof of purchase must be presented, showing the date of purchase and the battery serial number and/or 4 digit product date code. The battery must be tested by an Authorized Battery Outlet for actual defect, and upon confirmation of the defect, the warranty will be administered.

The Warranty does not cover shipping damage, cracked covers, cracked cases, bulged cases from heat, freezing or explosion, discharged batteries, the use of undersized batteries and batteries damaged from electrical equipment. This warranty covers only manufacturing defects.

This warranty does not cover the cost of transportation, shipping, service calls, battery installation, recharging, or use of rental batteries.

This warranty applies ONLY to batteries used in solar / marine / motive power applications.

The Company makes no warranty with respect to its batteries other than the warranty stated in this document. All implied warranties of merchantability and all expressed and implied warranties of any other kind are hereby excluded.

Example of pro rata warranty calculation:

Solar Series 4000, 7 Year Warranty, failing after 5 years in service due to a manufacturing fault -

Current selling price = £299.88 ÷ 84 months (7 years) = £3.57, multiply by number of months in service, 60 months (5 years) = £214.20. The difference of £85.68 would be the figure due to the customer against the cost of a replacement battery.

The Company will replace or, at its option, repair any Rolls Battery sold by it that fails to conform to the warranty stated above on a NO CHARGE BASIS as follows:
